

### 3rd Year Track DDEFi

#### Data, Decisions in Economics and Finance

#### (Données, Décisions Economiques et Financières in French)

This page is also available in the following languages

- **French:** mostly dedicated to Centrale Méditerranée degree-seeking students but some parts might also be useful to international exchange students.

### Graduate Program outlines

The graduate program is designed to offer a wide range of courses into several fields: Mathematical Finance, Insurance or Quantitative Management and Data Science related to the previous fields.

Technology and economy are more and more complex. Mathematics and their applications are at the heart of the decision tools needed in this world: they help to model, evaluate and control risks associated to industrial processes, economical phenomena or financial products. The knowledge of mathematical tools associated to a deep understanding of these phenomena is largely appreciated in many areas.

Depending on the student's status, the student can also attend a Master program in parallel with the track DDEFi :

- Master Finance Faculté d'Economie et Gestion (FEG) and Aix-Marseille School of Economics (AMSE), track <https://feg.univ-amu.fr/fr/formation/masters/m2-finance-parcours-modelisation-financiere#section-7347> (information contact at Centrale Méditerranée: Renaud Bourlès): only 2nd year course units.
- Master in Applied Mathematics and Statistics, track Data Science (information contact at Centrale Méditerranée: Christophe Pouet): only 2nd year course units.

### Goals

Prepare students to become highly skilled engineers able to recognize and model complex problems in order to develop adequate strategic decisions.

The main topics are finance, insurance, probability, statistics, scientific computing, optimization, mathematical modelling for risks in economy and finance, actuarial science, marketing, quantitative management.

## Important information for exchange students

**EXCHANGE STUDENTS: This section contains VERY IMPORTANT information to help you prepare your mobility.**

### Number of accepted students

The 3rd Year scientific tracks such as DDEFi have a limited number of accepted students. Priority is given to Centrale Méditerranée engineering degree students and Aix-Marseille University students. Nevertheless, the track DDEFi has always been able to accept exchange students (usually 3 or 4) and we will be very pleased to have you as an exchange student for one or two semesters depending on the requirements at your home university.

### Academic calendar

A new organization will be in place from academic year 2024-2025. Please carefully check the latest information here and inquire of your local coordinator if it fits your mobility window.

The general organization of the year is as follows:

- **Fall-Winter Semester (called Semester 9 abbreviated as S9): from early September until late March/early April.** All course units are offered during this semester. See below the programme structure to learn more about available courses.
- **Spring-Summer Semester (called Semester 10 abbreviated as S10): from early April up to late September.** The internship period (work or research placement) can be as long as 6 months.

Although each course unit belongs to a specific period, some course units can be taught over two or three periods (e.g. the course unit Actuarial Science). Therefore it is very important for you to know your exact mobility window available at your home institution and to contact Centrale Méditerranée International Mobility Office or Prof. Christophe Pouet ( [christophe.pouet\[A-T\]centrale-med.fr](mailto:christophe.pouet[A-T]centrale-med.fr) with [A-T] replaced by @) for the track DDEFi if you need some advice.

If you can stay at Centrale Méditerranée from early September to early April, you will be able to validate 17 ECTS credits (including a 5 ECTS team project) with course units offered in the track DDEFi but there are some ways to improve the total as some course units can be counted as Master course units. Do not hesitate to contact Centrale Méditerranée International Mobility Office or Prof. Christophe Pouet to discuss your learning agreement in regard to the requirements of your home institution.

You can validate more ECTS credits if your home institution accepts to recognize other course units offered during Semester 9 such as language courses, management courses, courses offered in one of the professional tracks.

### Language of instruction

If you intend to come for one year at Centrale Méditerranée, please note that depending on the

number of credits taken, your proficiency in French must be at least at intermediate level (level B1 or higher recommended).

**Please note that the instruction language is English for several course units in the track DDEFi.**

### **Number of credits for a full exchange year**

If you intend to come for one year, the Spring-Summer semester will certainly include a research or work placement (equivalent to a Master Thesis, 30 ECTS).

**Please check the information below about credits.**

### **Availability of courses**

- Courses may be cancelled with very short notice (e.g. if not enough students sign up for the course), although that should happen very seldom in the 3rd year track DDEFi.
- Courses may be overbooked (too many students sign up) preventing you from taking the course. Priority is given to degree-seeking students.

### **Structure of the program**

The track DDEFi allows a student to validate 12 ECTS for courses and 5 ECTS for a team project. The number of ECTS credits thanks to DDEFi course units depends on your mobility period.

Please read CAREFULLY what is written in the table below and do not hesitate to contact Centrale Méditerranée International Mobility Office or Prof. Christophe Pouet (chirstophe.pouet[AT]centrale-med.fr with [AT] replaced by @) for the track DDEFi if you need some advice.

### **Academic Team**

Instructors are from Centrale Méditerranée, from other HEIs (such as Aix-Marseille Université or Kedge BS) or highly skilled practitioners from renowned companies including several Centrale Méditerranée alumni. Full list of instructors available in French [here](#)

### **List of course units**

**Warning! This programme is offered since academic year 2024-2025. There are minor differences in course contents but the main difference with previous academic years is that taught course units are now worth 4 ECTS credits instead of 8 ECTS credits. This should ease the construction of your learning agreement.**

The DDEFi track offers 12 ECTS credits for the taught courses and 5 ECTS credits for the DDEFi project (team project with a private company).

The structure of the program DDEFi is the following

<b>Team Project (from mid-September to late March/early April)</b>						
English Name	French name	Code	ECTS	Semester	Contact hours	Coordinator
DDEFi project	<a href="#">Projet DDEFi</a>		5	S10 (Spring)	100h	R. Bourlès
<b>Period 1 (from early September to mid-November): Common core</b>						
English Name	French name	Code	Semester	ECTS	Contact hours	Coordinator
Models and Decisions	<a href="#">Modèles et décisions</a>		4	S9 (Fall-Winter)	100h	R. Bourlès
<b>Period 2 (from mid-November to late January/early February): Major (1 course unit to be chosen)</b>						
English Name	French name	Code	ECTS	Semester	Contact hours	Coordinator
Finance	<a href="#">Finance</a> 		4	S9 (Fall-Winter)	100h	R. Bourlès
Data and decisions	<a href="#">Données et décisions</a>		4	S9 (Fall-Winter)	100h	R. Bourlès
<b>Period 3 (from late January/early February to late March/early April): Specialised course unit (1 course unit to be chosen)</b>						
English Name	French name	Code	ECTS	Semester	Contact hours	Coordinator
Mathematical finance	<a href="#">Mathématiques financières</a>		4	S9 (Fall-Winter)	100h	
Corporate finance	<a href="#">Finance d'entreprise</a>		4	S9 (Fall-Winter)	100h	
Actuarial science	<a href="#">Actuariat</a>		4	S9 (Fall-Winter)	100h	
Data analysis	<a href="#">Analyse et données</a>		4	S9 (Fall-Winter)	100h	

If you attend the course unit Finance during Period 2, then you must choose between the course units Mathematical finance or Corporate finance. If you attend the course unit Data and decisions during Period 2, then you must choose between the course units Actuarial science or Data analysis.

If as an exchange student, you need more ECTS credits for your exchange semester than you can take in the track DDEFi, then you have to choose course units in the following offer (beware that most courses are in French)

- 3rd Year Common Core in Management: 5 ECTS during S9 (Fall-Winter)
- International cultures and foreign languages: 2 ECTS during S9 (Fall-Winter)

For example you can attend a course called French as a Foreign Language (the introduction week for international students has also an intensive French language course that can give ECTS credits, check with the International Mobility Office).

- Professional track: 6 ECTS during S9 (Fall-Winter)

The professional tracks that best complement the track DDEFi are Entrepreneurship (ENT), Research & Development (R&D) and Production-Logistics (PRL).

**Alternative solution:** you can also attend courses in a Master programme or see if some joint courses between DDEFi track and Master programmes can be recognized as Master courses in your transcript of academic records.

**Please contact the DDEFi track deputy coordinator Prof. Christophe Pouet (christophe.pouet[A-T]centrale-med.fr with [A-T] replaced by @) for more information.**

## Career prospects and postgraduate studies

DDEFi students are usually hired as interns or employees in the following areas:

- Banking, Finance: BP2S, BNP Paribas, Amundi,...
- Insurance, Actuarial Science: Axa, Crédit Agricole Assurances,...
- Audit, Consulting, Services: Mazars, E&Y, KPMG, Solucom,...
- Information Technology, Electronics, Telecommunication: Orange, CGI,...
- Luxury Industry: Chanel, Guerlain, L'Oréal,...
- Transportation: Renault, Airbus Helicopters,...

For a more complete list of companies, please check the webpage (in French) about [DDEFi internship](#).

After their graduation at Centrale Méditerranée, some students have successfully applied for one of the following graduate/postgraduate programmes:

- Mastères spécialisés [HEC](#), [ESSEC](#), [ESCP](#), [EM Lyon](#)
- Mastères spécialisés [ENSAE](#) (Actuariat, Finance de marché, Data Science)
- Mastère spécialisé [IFP School](#)
- Mastère spécialisé [Mines de Paris](#)
- Université Paris Dauphine (Paris Sciences et Lettres) :
  - [Master Mathématiques et applications](#) : MASEF, ISF, Actuariat
  - [Finance](#)
- Master [MFD](#) Ecole Nationale des Ponts et Chaussées et Université Gustave Eiffel
- Mastère spécialisé [Ecole Nationale des Ponts et Chaussées](#) M.S. Infrastructure Project Finance
- Master [M2MO](#) Université Paris Diderot
- Master [Probabilités et Finance](#) Sorbonne Université et Ecole Polytechnique
- Master [London School of Economics](#)
- MBA [Collège des Ingénieurs](#)
